## PROFILE

Entry-level Full Stack Web Developer with hands-on experience in MERN stack, Django, and REST API development, focused on building responsive and scalable web applications.

## TECHNICAL PROJECTS

### Stock Trading Platform | MERN Stack

- Designed and developed a full-stack web application using **MongoDB, Express.js, React.js, and Node.js**.
- Implemented **user authentication**, portfolio management, and secure session handling.
- Integrated **REST APIs** to fetch and display real-time stock market data.
- Built a **responsive UI** with React and optimized frontend performance.
- Used **Git and GitHub** for version control, debugging, and team collaboration.

### HealthHub Web Application | React, Firebase, Node.js

- Developed a responsive web application using **React, HTML, and CSS** following modern UI practices.
- Implemented **Firebase Authentication** for secure login and logout functionality.
- Built backend services using **Node.js** and integrated **REST APIs** for dynamic data handling.
- Worked with **Git/GitHub** for version control and project management.

### Slice Web Application (Ongoing) | Next.js, Django

- Developing a full-stack web application with **Next.js frontend** and **Django backend**.
- Implemented **routing, state management**, and responsive layouts using modern JavaScript.
- Designed and integrated **Django models and REST APIs** for secure data management.
- Focused on **scalable architecture, clean code, and maintainability**.

## CERTIFICATES

- Node.js Developer Certificate** – Meta TechSaksham Program (Node.js, Express.js, REST APIs)
- Python & SQLite Certification** – Microsoft (Python, SQL, Database Management)
- JavaScript Fundamentals** – HackerRank (JavaScript, DOM, Problem Solving)

## PROFESSIONAL EXPERIENCE

### Frontend Development Intern

Web Plant | May 2025 – July 2025

- Developed and maintained responsive web applications using **HTML, CSS, JavaScript, and React.js**, improving UI performance and cross-browser compatibility.
- Collaborated with designers and backend developers to **implement reusable React components** and enhance overall user experience.
- Integrated **REST APIs** and handled frontend data rendering and state management.
- Used **Git and GitHub** for version control, code reviews, and team collaboration in an agile environment.
- Debugged and optimized frontend code using **Browser DevTools**, improving load time and fixing UI issues.
- Followed **clean code practices**, improved code readability, and assisted in testing and deployment tasks

## SKILLS

**Programming Languages:** Python, JavaScript

**Frontend Technologies:** HTML5, CSS3, React.js, Next.js, Responsive Web Design

**Backend Technologies:** Node.js, Express.js, Django, REST API Development, JWT Authentication, CRUD Operations

**Databases:** MongoDB, Firebase, SQLite

**Tools & Platforms:** Git, GitHub, VS Code, Postman, Browser DevTools

**Concepts & Practices:** MERN Stack, MVC Architecture, API Integration, Version Control, Debugging, Testing, Deployment Basics

## EDUCATION

**Bachelor of Technology (B.Tech) in Computer Science and Information Technology** Dronacharya College of Engineering, Gurugram | 2022 – 2026  
CGPA: 7.4 (up to 6th semester)

**Senior Secondary (Class 12)** DAV Public School | 2022 | 70%

**Secondary (Class 10)** DAV Public School | 2020 | 84%
